GERMANS ATTACK FRENCH TULSA QUIET AFTER RIOTING

ORGANIZED FORCES OF INHABITANTS IN WELL PLANNED OFFENSIVE

(By Associated Press)
OPPELN, Silesia, June 2.—French soldiers forming the garrison at Beuthen in southeastern Silesia, near the old Polish frontier, have been attacked by forces organized by German inhabitants. Reports state that the Germans who participated in the fighting numbered 3000. The French charged with Tanks and are said to have gained the upper hand. There were many German casualties.

The situation at Beuthen was complicated by the presence of Polish insurgent forces around the city. The Poles began a fight with the Germans in the outskirts of the town Sunday, and when the French were attacked the Poles rushed to their assistance.

The attack by the Germans on the French is said to have been well planned. Telegraph and telephone wires between French headquarters and the barracks were cut, sentries were driven back and a headquarters detachment surrounded.

Tanks were rushed to the scene and the Germans, armed with pistols, attempted to capture the machines, but were repulsed and driven into adjacent buildings from the windows of which a hot fire was opened. The tanks charged on the buildings, firing volleys through the doors and windows.

The situation at Beuthen is reported by neutral refugees reaching here to be grave. The German population is declared to be desperate.
